RUTUL DESAI

rutul.desai@outlook.com | desairutul.github.io

SUMMARY

Detail-oriented Supply Chain Data Analyst with 2+ years of experience turning operational data into actionable insights. Proven ability to automate data reporting with Python, Power BI dashboards and semantic models.

CORE SKILLS

- Microsoft Data Platform: Microsoft Fabric (Power BI reports, semantic models), DAX, Power Query M, Power Automate, and SQL Server
- Data Pipelines & ETL: Python (Pandas, NumPy), SQL, Airflow, Docker, and MCP servers for ingesting, transforming, modeling, and serving data
- SQL Data Modeling & Warehousing: ClickHouse, MySQL, and GCP, including composite data models over large multi-source datasets
- Supply Chain Analytics: Multi-tier flow visibility, inbound and outbound reconciliation, inventory replenishment metrics, demand forecasting
- Methods & Tools: Statistical forecasting and regression, correlation and root-cause analysis, Lean 5S, Tableau, JIRA, and Slack

PROFESSIONAL EXPERIENCE

Supply Chain Analyst — A&M Retail Ventures LLC | Kirkland, WA | Jun 2026 – Present

- Automated recurring supply chain reporting with 2 Python data pipelines, reducing processing time from 1 hour to under 3 minutes.
- Developed Python demand forecasting models that aligned orders with expected demand, improving purchasing by 20%.
- Translated forecast insights into stock and replenishment plans, increasing inventory turnover by 25%.
- Delivered a Power BI report and semantic model that tracked supply chain performance and forecast results for stakeholders.

Operational Analyst — Radiant Global Logistics | Seattle, WA | Jul 2025 – May 2026

- Engineered SQL and Python ETL workflows for a composite data model, replacing Excel with real-time Power BI reports and semantic models in Microsoft Fabric for KPI metrics.
- Streamlined data extraction, transformation, loading, and reporting with 4 Python scripts, cutting end-to-end runtime for daily operations from 5 hours to 10 minutes (95%).
- Aggregated 4 large-scale datasets in SQL and ingested them through a Docker-based MCP server for downstream analysis.
- Raised inflow and outflow KPI accuracy by 70% through correcting KPI definitions and joins, tracking fixes with operations in JIRA and Slack.

Data Analyst (Part-time) — University of Washington | Seattle, WA | Oct 2024 – Jun 2025

- Deployed a linear regression forecast of demand and price thresholds whose recommendations raised departmental revenue by 35%.
- Applied SQL analysis and Tableau visualizations to large purchasing datasets to recommend dynamic pricing strategies.
- Presented findings clearly to stakeholders and streamlined recurring reporting and analysis workflows.

Produce Supervisor — Whole Foods Market | Vancouver, BC | Mar 2023 – May 2024

- Managed full-cycle procurement, inventory replenishment, and vendor coordination for local and overseas suppliers.
- Used real-time inventory metrics to guide purchasing decisions and improve inventory turnover.
- Supervised and trained cross-functional team members to keep daily front- and back-of-house operations running reliably at high volume.

INTERNSHIPS

Inventory Analyst (Co-op) — Walmart Inc. | Toronto, ON | May 2022 – Aug 2022

- Conducted in-depth correlation analyses to identify process bottlenecks in inventory and operations workflows.
- Captured $1.2M+ in annualized savings by turning analysis findings into targeted process corrections.
- Introduced and championed the Lean 5S methodology to reduce process clutter, helping frontline tasks run about 40% faster.

Operations Analyst (Co-op) — Walmart Inc. | Toronto, ON | Sep 2021 – Dec 2021

- Modeled historical operational trends to close performance gaps, delivering $1M+ in annualized savings.
- Deployed validation logic that flagged systemic product misclassifications, protecting margins from unit revenue losses of up to 90%.
- Built an inventory audit and reporting method that cut counting cycles by about 20–30% and in-scope department shrink by up to 87%.

EDUCATION

University of Washington — M.S. in Supply Chain Management (2024 – 2025)

George Brown College, Toronto — Advanced Diploma in Supply Chain & Operations Management, specialization in Business Administration (2020 – 2022)

Gujarat Technological University — B.E. in Mechanical Engineering (2014 – 2018)

CERTIFICATIONS

Certified Lean Six Sigma Green Belt — University of Washington (Jun 2025)
